TITLE 37—PATENTS, TRADEMARKS AND COPYRIGHTS

Chapter I—Patent and Trademark Office, Department of Commerce

PART 1—RULES OF PRACTICE IN PATENT CASES

PART 2—RULES OF PRACTICE IN TRADEMARK CASES

PART 4—FORMS FOR TRADEMARK CASES

Revised Rules and Procedures

On February 11, 1975, a notice of proposed rulemaking was published in the Federal Register (40 FR 6361) regarding the proposal by the Patent and Trademark Office to amend Title 37 of the Code of Federal Regulations by revising or amending §§ 1.12, 1.136, 1.197, 1.244, 1.256, 1.304, 2.18, 2.37, 2.75, 2.80, 2.85, 2.101, 2.102, 2.103, 2.105, 2.111, 2.112, 2,120, 2.123, 2.127, 2.129, 2.141, 2.144, 2.145, 2.162, 2.172, 2.183, 2.185, 2.187, and 4.2. Interested persons were given until May 1, 1975, to submit written comments and suggestions. Full and careful consideration was given to all written comments submitted and some changes in the original proposal have been made in view thereof.

Amendments are also now being made in sections which were not included in the published proposal, namely, §§ 2.11, 2.14, 2.15, 2.19, 2.93, 2.99, 2.113, 2.119, and 2.161; and section 4.3 is being deleted. Since these amendments are in accord with changes as to related matters in other sections which were contained in the published proposal, notice and public procedures thereon are deemed unnecessary.

The additional amendments, as well as changes from the text of the sections as published in the original proposal, are described below:

Paragraph (b) of § 1.197, paragraph (b) of § 1.256, paragraph (c) of § 2.129 and § 2.144 are being revised to include the name of the Board which may grant extension of time for requesting rehearing or reconsideration of a decision, that is, the Board of Appeals, the Board of Patent Interferences, or the Trademark Trial and Appeal Board.

Paragraph (a) of §1.304 (second sentence) and paragraph (d)(1) of § 2.145 (second sentence) are being revised to state more clearly that the time for filing a request for rehearing or reconsideration is determined under § 1.197(b) or § 1.256(b) in patent cases and § 2,129(c) or section 2.144 in trademark cases. These paragraphs are also being revised to make clear that if a request for rehearing or reconsideration, or modification of a decision, is acted on less than thirty days after the date of the decision, an appeal may still be filed or a civil action commenced within the original sixty-day period.

As to representation and powers of attorney, § 4.2 is being revised to state that individuals must be appointed in a power of attorney in order for the document to be regarded as a power, and §4.3, which is a form for the authorization of an agent, is being cancelled because normally persons who are recognized to practice before the Patent and Trademark Office in trademark cases are not designated as agents (see § 2.12). The form is outmoded and inaccurate, and in view of the relatively small amount of use which will probably be made of a form for authorizing representation by a person who is not an attorney, it is not believed necessary to provide a form for that purpose. In line with this change, the wording as to "agent" where it appears in either existing or proposed §§ 2.11, 2.14(c), 2.15, 2.18, 2.19, 2,93, 2,99(a) and (b), 2.102(a), 2.103, 2.113, 2.119(a) and (b) 2.123(e)(2), and 2.129(b), is being changed to "other authorized representative" or equivalent language, as appropriate.

In § 2.75 the word "effective" is being added to the second sentence in describing the original filing date.

In paragraph (e) of § 2.85, the clause which refers to the fee being less than the required amount because "a multiple class application or registration is" involved, is being reworded, for greater accuracy, to refer to the fee being less than the required amount because "multiple classes in an application or registration are" involved. At the end of the paragraph, the following is being added: ", or if action is sought only for the number of classes equal to the number of

fees submitted," the purpose of this addition being to make it clear that action may be taken as to less than all of the classes in a multiple class application or registration. In this connection, see also revised § 2,172. In paragraph (e) of § 2.85 the word "Examiner" is being changed to "Office" because the notification referred to is not necessarily handled by an examiner.

In § 2.101 wording is being added to make it clear that an opposition may be filed within an extension of time for filing opposition as well as within thirty days after publication of the mark. Also, the wording "Two or more persons may be joined" is being changed to "If persons are joined," since whether or not persons are properly joined is subject to review by the Trademark Trial and Appeal Board.

In paragraph (b) of § 2.102, the word "written" is being inserted before "request to extend the time" in the first sentence. Also, reference to a time for filing a showing of cause has been deleted as being superfluous. These modifications accord with Pub. L. 93-600, enacted January 2, 1975.

In § 2.103 the words "such filing" have been modified to read "the filing of such opposition" in order to assure the clarity of the meaning.

In addition, §§ 2.101, 2.102, and 2.103 taken as a unit are being reorganized to place topics in better sequence and to consolidate references to each topic in one place. This reorganization is for the purpose of clarity and does not make any change in substance.

The division of § 2.111 into paragraphs (a) and (b) has been eliminated, proposed paragraph (b) relating to insufficient fees being incorporated in the body of the section. The last sentence in proposed § 2.112 relating to insufficient fees has been deleted as being repetitious of § 2.111.

A sentence is being added at the end of section 2.112 indicating that a fee for each person for each class is required if persons are joined in a petition to cancel.

The pertinent wording in each of §§ 2.101, 2.102, 2.103, 2.111, 2.112, 2.141, 2.161, 2.162, and 2.183 is being changed to indicate more plainly that action may be taken on less than the total number of classes in an application or registration, and that in that event the particular class or classes for action should be specified. The pertinent wording in such sections has also been modified to state that action should "include" the appropriate number of fees rather than "be accompanied by" such fees, in order to accord with the present practice of accepting a fee if, it is received within the prescribed period even though it may not physically accompany the action.

Section 2.113 is being revised to change the word "notice" to "notification." In section 2.112 the word "notice" in the first sentence is likewise being changed to "notification." These changes accord with the equivalent change made in § 2.105 in the published proposal. The purpose is to make it clear that the paper which is prepared under these sections is merely a notification of the existence of a cancellation proceeding which commenced when a petition which is correct as to form was filed. The last word of paragraph (b) of § 2.113 is being changed from "registrant" to "respondent party" to agree with cancellation § 2.112.

Paragraph (c) in § 2.120 is being modified to provide that a written statement by the attorney for the moving party, rather than an affidavit or declaration, is sufficient in support of a motion for an order to compel discovery, and that if issues raised by the motion have been subsequently resolved, the attorney should merely advise the Trademark Trial and Appeal Board in writing of the matters which no longer require decision by the Board.

In § 2,162, the wording of paragraph (e) is being modified to indicate that the sixth year affidavit must state that the mark is in use except when there is excusable nonuse under paragraph (f) of such section. The wording of such paragraph also is being expanded to make clear the present practice that the specimen submitted with the sixth year affidavit be a specimen currently in use. In both paragraphs (e) and (f), in the second sentences, the second occurrence of the words "may be" is being deleted as unnecessarily repetitious.

In § 2.172, the proposed third sentence is being reworded to simplify the language, and at the end of the proposed fourth sentence the specific number (2.173) of the section referred to in the sentence is being added.

In § 2.183 the wording of paragraph (a) is being modified to indicate that the renewal application must state that the mark is still in use in commerce except when there is excusable nonuse under paragraph (c) of such section. In the last sentence of paragraph (c), the words "in order to show excusable nonuse" are being added after the word "explanation" for greater clarity, and in the same sentence the second occurrence of the words "may be" is being deleted as unnecessarily repetitious.

Section 2.187 is being reworded to make clear that not only is it permissible for a certificate of registration to issue to an assignee or in a new name of applicant, but that the certificate will be so issued whenever the Office knows of such situation in time to do so. Section 2.187 is being further reworded to clarify that for a certificate of registration to issue to an assignee or in a new name of applicant, the supporting document must be actually recorded by the time indicated; further, if the document is not actually recorded by such time, a statement placed in the application file by the time specified will accomplish the same result. Also added to § 2.187 is the statement that the address of the assignee may be provided by being placed in the recorded document.

In consideration of the comments received and pursuant to the authority contained in section 41 of the Act of July 5, 1946 (60 Stat. 440; 15 U.S.C. 1123) as amended on January 2, 1975 (Pub. L. 93-596, 88 Stat. 1949), and in section 6 of the Act of July 19, 1952 (66 Stat. 793; 35 U.S.C. 6) as amended on October 5, 1971 (Pub. L. 94-132, 85 Stat. 364) and amended on January 2, 1975 (Pub. L. 93-596, 88 Stat. 1949), Parts 1 and 2 of Chapter I of Title 37 of the Code of Federal Regulations are hereby revised or amended, as follows:

1. Section 1.12 is revised to read as follows:

§ 1.12. *Assignment records open to public inspection.*

The assignment records, relating to original or reissue patents, including digests and indexes, and assignment records relating to pending or abandoned trademark applications and to trademark registrations, are open to public inspection and copies of any instrument recorded may be obtained upon payment of the fee therefor. Assignment records, digests and indexes, relating to any pending or abandoned patent application are not available to the public. Copies of any such patent assignment records and information with respect thereto shall be obtainable only upon written authority of the applicant or his assignee or attorney or agent or upon a showing that the person seeking such information is a bona fide prospective or actual purchaser, mortgagee or licensee of such patent application, unless it shall be necessary to the proper conduct of business before the Office or as provided by these rules. An order for a copy of an assignment should give the identification of the record. If identified only by the name of the patentee and number of the patent, or in the case of a trademark registration by the name of the registrant and number of the registration, or by name of the applicant and serial number of the application, an extra charge will be made for the time consumed in making a search for such assignment.

2. In § 1.136, paragraph (b) is revised. As amended, § 1.136 reads as follows:

§ 1.136 *Time less than six months.*

* * * * *

(b) The time for reply, when a time less than six months has been set, will be extended only for sufficient cause, and for a reasonable time specified. Any request for such extension must be filed on or before the day on which action by the applicant is due, but in no case will the mere filing of the request effect any extension. Only one extension may be granted by the primary examiner in his discretion; any further extension must be approved by the Commissioner. In no case can any extension carry the date on which response to an action is due beyond six months from the date of the action.

3. In § 1.197, paragraph (b) is revised. As amended, § 1.197 reads as follows:

§ 1.197 *Action following decision.*

* * * * *

(b) Any request for rehearing or reconsideration, or modification of the decision, must be filed within thirty days from the date of the original decision, unless that decision is so modified as to become, in effect, a new decision, and the Board

of Appeals so states. Such time may be extended by the Board of Appeals upon a showing of sufficient cause.

* * * * *

4. In § 1.244, paragraph (c) is revised. As amended, § 1.244 reads as follows:

§ 1.244 *Motions; miscellaneous provisions.*

* * * * *

(c) Any request for rehearing or reconsideration, or modification of the decision, must be filed within twenty days after the date of the decision, and any reply thereto shall be filed within twenty days from the date of service of the request.

* * * * *

5. In § 1.256, paragraph (b) is revised. As amended, § 1.256 reads as follows:

§ 1.256 *Final hearing.*

* * * * *

(b) Any request for rehearing or reconsideration, or modification of the decision, must be filed within thirty days from the date of the original decision, unless that decision is so modified as to become, in effect, a new decision, and the Board of Patent Interferences so states. Any reply thereto shall be filed within fifteen days from the date of service of the request. The times specified herein may be extended by the Board of Patent Interferences upon a showing of sufficient cause. (See § 1.304.)

6. Section 1.304 is revised to read as follows:

§ 1.304 *Time for appeal or civil action.*

(a) The time for filing the notice and reasons of appeal to the U.S. Court of Customs and Patent Appeals (section 1.302) or for commencing a civil action (section 1.303) is sixty days from the date of the decision of the Board of Appeals or the Board of Patent Interferences. If a request for rehearing or reconsideration, or modification of the decision, is filed within the time specified in section 1.197(b) or 1.256 (b), or within any extension of time granted thereunder, the time for filing an appeal or commencing a civil action shall expire at the end of the sixty-day period or thirty days after action on the request, whichever is later. The sixty and thirty day periods may be extended by the Commissioner upon a showing of sufficient cause.

(b) The times specified herein are calendar days. If the last day of the time specified for appeal or commencing a civil action falls on a Saturday, Sunday or legal holiday, the time is extended to the next day which is neither a Saturday, Sunday nor a holiday.

(c) If a defeated party to an interference has taken an appeal to the U.S. Court of Customs and Patent Appeals and an adverse party has filed notice under 35 U.S.C. 141 that he elects to have all further proceedings conducted under 35 U.S.C. 146 (§ 1.303(c)), the time for filing a civil action thereafter is specified in 35 U.S.C. 141.

7. Section 2.11 is revised to read as follows:

§ 2.11 *Applicants may be represented by an attorney.*

The owner of a trademark may file and prosecute his own application for registration of such trademark, or he may be represented by an attorney or other person authorized to practice in trademark cases. The Patent and Trademark Office cannot aid in the selection of an attorney or other representative.

8. In § 2.14, paragraph (c) is revised. As amended, § 2.14 reads as follows:

§ 2.14 *Advertising.*

* * * * *

(c) No person not an attorney, solicitor or lawyer shall, in any material specified in paragraph (b) of this section or in papers filed in the Patent and Trademark Office, represent himself to be an attorney, solicitor or lawyer.

9. Section 2.15 is revised to read as follows:

§ 2.15 *Signature and certificate of attorney or other representative.*

Every paper filed by an attorney at law or other person representing an applicant or party to a proceeding in the Patent or Trademark Office must bear the signature of such attorney at law or other person except those papers which are required to be signed by the applicant or party. The signature of an attorney at law or such other person to a paper filed by him, or the filing of any paper by him, constitutes a certificate that the paper has been read; that its filing is authorized; that to the best of his knowledge, information, and belief there is good ground to support it; and that it is not interposed for delay.

10. Section 2.18 is revised to read as follows:

§ 2.18 *Correspondence, with whom held.*

Correspondence will be sent to the applicant or a party to a proceeding at his address unless papers are transmitted by an attorney at law, or a written power of attorney is filed, or written authorization of other person entitled to be recognized is filed, or the applicant or party designates in writing another address to which correspondence is to be sent, in which event correspondence will be sent to the attorney at law transmiting the papers, or to the attorney at law designated in the power of attorney, or to the other person designated in the written authorization, or to the address designated by the applicant or party for correspondence. Correspondence will continue to be sent to such address until the applicant or party, or the attorney at law or other authorized representative of the applicant or party, indicates in writing that correspondence is to be sent to another address. Double correspondence will not be undertaken by the Patent and Trademark Office, and if more than one attorney at law or other authorized representative appears or signs a paper, the Office reply thereto will be sent to the address already established in the file until another correspondence address is specified by the applicant or party or by the attorney or other authorized representative of the applicant or party.

11. Section 2.19 is revised to read as follows:

§ 2.19 *Revocation of power of attorney or of other authorization to represent.*

Authority to represent an applicant or a party to a proceeding may be revoked at any stage in the proceedings of a case upon notification to the Commissioner; and when it is so revoked, the Office will communicate directly with the applicant or party to the proceeding or with such other qualified person as may be authorized. The Patent and Trademark Office will notify the person affected of the revocation of his authorization.

12. Section 2.37 is revised to read as follows:

§ 2.37 *Authorization for representation; U.S. representative.*

The authorization of a qualified person to represent applicant (section 2.17(b)) and the designation of a domestic representative (section 2.24) may be included as a paragraph or paragraphs in the application.

13. Section 2.75 is revised to read as follows:

§ 2.75 *Amendment to change application to different register.*

An application for registration on the Principal Register may be changed to an application for registration on the Supplemental Register and vice versa by amending the application to comply with the rules relating to the requirements for registration on the appropriate register, as the case may be. The original filing date may be considered the effective filing date for the purpose of proceedings in the Patent and Trademark Office provided the application as originally filed was sufficient for registration on the register to which amended. Otherwise, the filing date of the amendment will be considered the effective filing date of the application so amended.

14. Section 2.80 is revised to read as follows:

§ 2.80 *Publication for opposition.*

If, on examination or reexamination of an application for registration on the Principal Register, it appears that the applicant is entitled to have his mark registered, the mark will be published in the OFFICIAL GAZETTE for opposition. The mark will also be published in the case of an application to be placed in interference or concurrent use proceedings, if otherwise registrable.

15. In § 2.85, paragraph (e) is revised. As amended, § 2.85 reads as follows:

§ 2.85 *Classification schedules.*

* * * * *

(e) Where the amount of the fee received on filing an appeal in connection with an application or on filing an affidavit under section 8(a) or 8(b) or on an application for

renewal or in connection with an opposition or petition for cancellation is sufficient for at least one class of goods or services but is less than the required amount because multiple classes in an application or registration are involved, the appeal or the affidavit or renewal application or opposition or petition for cancellation will not be refused on the ground that the amount of the fee was insufficient if the required additional amount of the fee is received in the Patent and Trademark Office within the time limit set forth in the notification of this defect by the Office, or if action is sought only for the number of classes equal to the number of fees submitted.

* * * * *

16. Section 2.93 is revised to read as follows:

§ 2.93 *Declaration of interference.*

An interference is declared and instituted by the mailing of a notice of interference to the parties. The notice shall be sent to each applicant, in care of his attorney or other representative of reord, if any, and if one of the parties is a registrant, the notice shall be sent to him or his assignee of record. The notice shall give the name and address of the adverse party and of his attorney or other authorized representative, if any, together with the serial number and date of filing and publication, if published, of each of the applications or registrations involved.

17. In § 2.99, paragraphs (a) and (b) are revised. As amended, §22.99 reads as follows:

§ 2.99 *Application to register as concurrent user.*

(a) An application for registration as a lawful concurrent user will be examined in the same manner as other applications for registration. When it is determined that the mark is ready for publication or allowance, except for questions relating to concurrent registration, the applicant may be required to furnish as many copies of his written application, specimens and drawing, as may be necessary. The Examiner of Trademarks shall prepare notices for the applicant and for each applicant, registrant, or user specified in the application for registration as a concurrent user. Such notices for the specified parties shall give the name and address of the applicant and of his attorney or other authorized representative, if any, together with the serial number and filing date of the application.

(b) The notices shall be sent to each of the parties, in care of their attorneys or other representatives, if they have attorneys or other representatives of record, and if one of the parties is a registrant, a notice shall also be sent to him or his assignee of record. A copy of the application shall be forwarded with the notices to the parties specified in the application. An answer to the notice is not required in the case of an applicant or registrant whose application or registration is specified in the application to register as concurrent user but a statement, if desired, may be filed within forty days after the mailing of the notice; in the case of other parties specified in th application to register as concurrent user, answer must be filed within forty days after the mailing of the notice.

* * * * *

18. Section 2.101 is revised to read as follows:

§ 2.101 *Filing an opposition.*

(a) Any person who believes that he would be damaged by the registration of a mark upon the Principal Register may oppose the same by filing an opposition in the Patent and Trademark Office within thirty days after publication of the mark sought to be registered (§ 2.80), or within an extension of the time for filing an opposition (§ 2.102). The opposition must be verified, or include a declaration in accordance with § 2.20, unless the opposition is filed by an attorney at law or other authorized representative in accordance with § 2.103.

(b) An opposition must include the required fee for each class sought to be opposed in the application. If fees insufficient to cover all classes in the application are submitted, the particular class or classes in which opposition is sought should be specified. If persons are jointed in an opposition, a fee for each class sought to be opposed in the application for each person so joined is required.

19. Section 2.102 is revised to read as follows:

§ 2.102 *Extension of time for filing opposition.*

(a) A request to extend the time for filing an opposition must be made by a person who believes that he would be damaged by the registration of the mark on the Principal Register, but an attorney at law or other person authorized to represent a party may file the request on behalf of a potential opposer. The potential opposer must be identified with reasonable certainty in the request. Any opposition filed during an extension of time should be in the name of the person to whom the extension was granted, but an opposition may be accepted if the person to whom the extension was granted was misidentified through mistake, or an opposition filed in a different name may be accepted if the person filing the opposition is in privity with the person to whom the extension was granted.

(b) A written request to extend the time for filing an opposition must be received in the Patent and Trademark Office before the expiration of thirty days from the date of publication, and should specify the period of extension desired. A first extension of time will be granted upon request if the extension is for not more than thirty days. Other extensions of time may be granted by the Commissioner for good cause.

20. Section 2.103 is revised to read as follows:

§ 2.103 *Opposition filed by attorney at law or other authorized representative.*

An opposition may be filed in the Patent and Trademark Office by an attorney at law or other person authorized to represent a party, either within thirty days after publication of the mark sought to be registered (§ 2.80), or within an extension of the time for filing an opposition (§ 2.102), but the opposition will be null and void unless confirmed by the opposer by verification, or by declaration in accordance with § 2.20, within thirty days after the filing of the opposition, or within such further time as may be fixed by the Commissioner upon request made before the expiration of the thirty days.

21. Section 2.105 is revised to read as follows:

§ 2.105 *Notification of opposition proceedings.*

A notification of an opposition which has been regularly filed shall be prepared, identifying the title and number of the proceeding and the application involved, and designating a time, not less than thirty days from the mailing date of such notification, within which answer must be filed. Copies of this notification shall be forwarded by the Trademark Trial and Appeal Board to the parties in care of their attorneys or other representatives, if they have attorneys or other representatives of record. The duplicate copy of the opposition and exhibits shall be forwarded with the notification to the applicant.

22. Section 2.111 is revised to read as follows:

§ 2.111 *Time for filing petition for cancellation.*

Any person who believes that he is or will be damaged by a registrant may, upon payment of the required fee for each class sought to be cancelled in the registration, apply to the Commissioner to cancel said registration as to the specified class or classes. A petition to cancel which includes insufficient fees to over all classes in the registration should specify the partiular class or classes for which cancellation is sought. Such petition may be made at any time in the case of registrations on the Supplemental Register or under the act of 1920, or registrations under the act of 1881 or the act of 1905 which have not been published under section 12(c) of the act (§ 2.153), and in cases involving the grounds specified in section 14(c), (d) and (e) of the act. In all other cases such petition must be made within five years from the date of registration of the mark under the act of 1946 or from the date of publication under section 12(c) of the act.

23. Section 2.112 is revised to read as follows:

§ 2.112 *Petition for cancellation.*

The petition to cancel, which must be verified, or include a declaration in accordance with § 2.20, must set forth a short and plain statement showing how the petitioner is or will be damaged by the registration, state the grounds for cancellation, and indicate the respondent party to whom notification shall be sent. A duplicate copy of the petition, including exhibits, shall be filed with the petition. Applications to cancel different registrations owned by the same party may be joined in one petition when appropriate, but the required fee must be included for each class sought to be cancelled in each registration against which each application to cancel is filed. If persons are joined in a petition to cancel, a fee

for each class sought to be cancelled for each person so joined is required.

24. In § 2.113, paragraph (b) and the title are revised. As amended, § 2.113 reads as follows:

§ 2.113 *Notification of filing of petition.*

* * * * *

(b) When the petition is correct as to form, a notification shall be prepared, identifying the title and number of the proceeding and the registration involved, and designating a time, not less than thirty days from the mailing date of such notification, within which answer must be filed. A copy of this notification shall be forwarded to the petitioner in care of his attorney or other representative, if he has an attorney or other representative of record. The duplicate copy of the petition and exhibits shall be forwarded with a copy of such notification to the respondent party.

25. In § 2.119, paragraphs (a) and (b) are revised. As amended, §2.119 reads as follows:

§ 2.119 *Service of papers.*

(a) Every paper filed in the Patent and Trademark Office in inter partes cases, including notice of appeal, must be served upon the other parties except the notice of interference (§ 2.93), the notification of opposition (§ 2.105), the petition for cancellation (§ 2.113), and the notice of a concurrent use proceeding (§ 2.99), which are mailed by the Patent and Trademark Office. Proof of such service must be made before the paper will be considered by the Office. A statement signed by the attorney or other authorized representative, attached to or appearing on he original paper when filed, clearly stating the date and manner in which service was made will be accepted as prima facie proof of service.

(b) Service of papers must be on the attorney or other authorized representative of the party if there be such or on the party if there is no attorney or other authorized representative, and may be made in either of the following ways: (1) By delivering a copy of the paper to the person served; (2) by leaving a copy at the usual place of business of the person served, with someone in his employment; (3) when the person served has no usual place of business, by leaving a copy at his residence, with a member of his family over 14 years of age and of discretion; (4) transmission by first-class mail, which may also be certified or registered. Whenever it shall be satisfactorily shown to the Commissioner that none of the above modes of obtaining service or serving the paper is practicable, service may be by notice published in the OFFICIAL GAZETTE.

* * * * *

26. In § 2.120, paragraph (c) is revised. As amended, § 2.120 reads as follows:

§ 2.120 *Discovery procedure.*

* * * * *

(c) Failure to make discovery: Sanctions.

(1) If any party fails or refuses to answer any proper question in taking discovery depositions or fails or refuses to answer any proper question propounded by interrogatories or fails or refuses to comply with a request to produce and permit the inspection and copying of designated things, the party seeking discovery may file a motion with the Trademark Trial and Appeal Board for an order compelling discovery. Such a motion must be supported by a written statement by the attorney for the moving party that the moving party or its attorney has conferred with the opposing party or its attorney in an effort in good faith to resolve by agreement the issues raised by the motion and has been unable to reach agreement. If issues raised by the motion are subsequently resolved between the parties, the attorney for the moving party should advise the Trademark Trial and Appeal Board in writing of the matters in the motion which no longer require decision by the Board.

(2) If a party or an officer, director, or managing agent of a party, or a person designated under Rule 30(b)(6) or 31(a) of the Federal Rules of Civil Procedure to testify on behalf of a party, fails to obey an order to provide or permit discovery, the Trademark Trial and Appeal Board may strike out all or any part of any pleading of that party, dismiss the action or proceeding, or deny any part thereof, enter judgment as by default against that party or take any such other action as may be deemed appropriate.

27. In § 2.123, paragraph (e)(2) is revised, and paragraph (g)(3) is added. As amended, § 2.123 reads as follows:

§ 2.123 *Trial testimony in inter partes cases.*

* * * * *

(e) * * *

(2) The deposition shall be taken in answer to questions, with the questions and answers recorded in their regular order by the officer, or by some other person (who shall be subject to the provisions of Rule 28 of the Federal Rules of Civil Procedure) in the presence of the officer except when his presence is waived on the record by agreement of the parties. The testimony shall be taken stenographically and transcribed, unless the parties present agree otherwise. In the absence of all opposing parties and their attorneys or other authorized representatives, depositions may be taken in longhand, typewriting, or stenographically.

* * * * *

(g) * * *

(3) Each deposition must contain an index of the names of the witnesses, giving the pages where their examination and cross-examination begin, and an index of the exhibits, briefly describing their nature and giving the pages at which they are introduced and offered in evidence.

* * * * *

28. In § 2.127, paragraph (b) is revised. At amended, § 2.127 reads as follows:

§ 2.127 *Motions.*

* * * * *

(b) Any request for rehearing or reconsideration, or modification of a decision, on a motion which is not finally dispositive of the case, must be filed within thirty days from the date thereof. Any brief in opposition shall be filed within fifteen days after service of the request.

* * * * *

29. In § 2.129, paragraphs (b) and (c), and the title, are revised. As amended, § 2.129 reads as follows:

§ 2.129 *Oral argument, and reconsideration.*

* * * * *

(b) Hearings may be advanced or adjourned, as far as is convenient and proper to meet the wishes of the parties and their attorneys or other authorized representatives.

(c) Any request for rehearing or reconsideration, or modification of a decision, including a decision on a motion which is finally dispositive of a case, must be filed within thirty days from the date thereof. Any brief in opposition shall be filed within fifteen days after service of the request. The times specified herein may be extended by the Trademark Trial and Appeal Board upon a showing of sufficient cause.

30. Section 2.141 is revised to read as follows:

§ 2.141 *Ex parte appeals from the Examiner of Trademarks.*

Every applicant for the registration of a mark may, upon final refusal by the Examiner of Trademarks, appeal to the Trademark Trial and Appeal Board upon payment of the prescribed fee for each class in the application for which an appeal is taken. An appeal which includes insufficient fees to cover all classes in the application should specify the particular class or classes in which an appeal is taken. A second refusal on the same grounds may be considered as final by the applicant for purpose of appeal.

31. Section 2.144 is revised to read as follows:

§ 2.144 *Reconsideration of decision on ex parte appeal.*

Any request for rehearing or reconsideration, or modification of the decision, must be filed within thirty days from the date of the decision. Such time may be extended by the Trademark Trial and Appeal Board upon a showing of sufficient cause.

32. In § 2.145, paragraphs (a), (b), and (d) are revised. As amended, § 2.145 reads as follows:

§ 2.145 *Appeal to court and civil action.*

(a) Appeal to U.S. Court of Customs and Patent Appeals. An applicant for registration, or any party to an interference, opposition, or cancellation proceeding who is dissatisfied with the decision of the Trademark Trial and Appeal Board and any registrant who has filed an affidavit or declaration under Section 8 of the act or who has filed an application for renewal and is dissatisfied with the decision of the

Commissioner (§§ 2.165, 2.184), may appeal to the U.S. Court of Customs and Patent Appeals. The appellant must take the following steps in such an appeal: (1) In the Patent and Trademark Office give written notice of appeal to the Commissioner (see paragraphs (b) and (d) of this section); (2) in the court, file a petition of appeal and a certified transcript of the record within a specified time after filing the appeal, and pay the fee for appeal, as provided by the rules of the court. The transcript will be transmitted to the Court by the Patent and Trademark Office on order of and at the expense of the appellant. Such order should be filed with the notice of appeal, but in no case should it be filed later than fifteen days thereafter.

(b) Notice of appeal.

(1) When an appeal is taken to the U.S. Court of Customs and Patent Appeals, the appellant shall give notice thereof in writing to the Commissioner, which notice shall be filed in the Patent and Trademark Office, within the time specified in paragraph (d) of this section. The notice shall specify the party or parties taking the appeal and shall designate the decision or part thereof appealed from.

(2) In inter partes proceedings, the notice must be served as provided in § 2.119.

* * * * *

(d) Time for appeal or civil action.

(1) The time for filing the notice of appeal to the U.S. Court of Customs and Patent Appeals (paragraph (b) of this section), or for commencing a civil action (paragraph (c) of this section), is sixty days from the date of the decision of the Trademark Trial and Appeal Board or the Commissioner, as the case may be. If a request for rehearing or reconsideration, or modification of the decision, is filed within the time specified in section 2.129(c) or 2.144, or within any extension of time granted thereunder, the time for filing an appeal or commencing a civil action shall expire at the end of the sixty day period or thirty days after action on the request, whichever is later. The sixty and thirty day periods may be extended by the Commissioner upon a showing of sufficient cause.

(2) The times specified herein are calendar days. If the last day of time specified for appeal, or commencing a civil action falls on a Saturday, Sunday or legal holiday, the time is extended to the next day which is neither a Saturday, Sunday nor a holiday.

(3) If a party to an inter partes proceeding has taken an appeal to the U.S. Court of Customs and Patent Appeals and an adverse party has filed notice under section 21(a)(1) of the act that he elects to have all further proceedings conducted under section 21(b) of the act, the time for filing a civil action thereafter is specified in section 21(a)(1) of the act.

33. Section 2.161 is revised to read as follows:

§ 2.161 *Cancellation for failure to file affidavit or declaration during sixth year.*

Any registration under the provisions of the act of 1946 and any registration published under the provisions of section 12(c) of the act (§ 2.153) shall be cancelled as to any class in the registration at the end of six years following the date of registration or the date of such publication, unless within one year next preceding the expiration of such six years the registrant shall file in the Patent and Trademark Office an affidavit or declaration in accordance with § 2.20 showing that said mark is still in use as to such class or showing that its non-use as to such class is due to special circumstances which excuse such nonuse and is not due to any intention to abandon the mark.

34. Setion 2.162 is revised to read as follows:

§ 2.162 *Requirements for affidavit or declaration during sixth year.*

The affidavit or declaration required by § 2.161 must:

(a) Be executed by the registrant after expiration of the five-year period following the date of registration or of publication under section 12(c) of the act;

(b) Be filed in the Patent and Trademark Office before the expiration of the sixth year following the date of registration or of publication under section 12(c) of the act;

(c) Identify the certificate of registration by the registration number and date of registration;

(d) Include the required fee for each class to which the affidavit or declaration pertains in the registration. If insufficient fees are included to cover all classes in the registration, the particular class or classes to which the affidavit or declaration pertains should be specified;

(e) State that the registered mark is in use (except under paragraph (f) of this section). The statement must be supported by evidence which shows that the mark is still in use, and normally such evidence consists of a specimen or a facsimile specimen which is currently in use, or a statement of facts concerning use. The supporting evidence should be submitted with the affidavit or declaration, but if it is not or if the evidence submitted is found to be deficient, the evidence, or further evidence, may be submitted and considered even though filed after the sixth year has expired;

(f) If the registered mark is not still in use, recite facts to show that nonuse is due to special circumstances which excuse such nonuse and is not due to any intention to abandon the mark. If the facts recited are found not to be sufficient, further evidence or explanation may be submitted and considered even though filed after the sixth year has expired; and

(g) Contain the statement of use or statement as to nonuse and appropriate evidence in support thereof, as required in paragraphs (e) and (f) of this section, for each class to which the affidavit or declaration pertains in the registration.

35. Section 2.172 is revised to read as follows:

§ 2.172 *Surrender for cancellation.*

Upon application by the registrant, the Commissioner may permit any registration to be surrendered for cancellation. Application for such action must be signed by the registrant and must be accompanied by the original certificate of registration, if not lost or destroyed. When there is more than one class in a registration, one or more entire class but less than the total number of classes may be surrendered as to the specified class or classes. Deletion of less than all of the goods or services in a single class constitutes amendment of registration as to that class (see § 2.173).

36. In § 2.183, paragraphs (a), (b), and (c) are revised. As amended, § 2.183 reads as follows:

§ 2.183 *Requirements for application for renewal.*

(a) The application for renewal must include a statement which is verified or which includes a declaration in accordance with § 2.20 by the registrant setting forth the goods or services recited in each class for which renewal is sought in the registration on or in connection with which the mark is still in use in commerce, specifying the nature of such commerce (except under paragraph (c) of this section). This statement must be executed not more than six months before the expiration of the registration and must:

(1) Be accompanied by a specimen or facsimile specimen for each class for whih renewal is sought in the registration showing current use of the mark.

(2) Include the required fee for each class for which renewal is sought in the registration, and an additional fee for each class in the case of a delayed application for renewal. If the application for renewal includes insufficient fees to over all classes in the registration, the particular class or classes for which renewal is sought should be specified.

(b) The declaration or verified statement, specimen or facsimile specimen and the fee for each class for which renewal is sought in the registration must be filed within the period prescribed for applying for renewal. If defective or insufficient, they cannot be completed after the period for applying for renewal has passed; if completed after the initial six month period has expired but before the expiration of the three month delay period, the application can be considered only as a delayed application for renewal.

(c) If the mark is not in use in commerce at the time of filing of the declaration or verified statement as to any class for which renewal is sought, facts must be recited to show that nonuse is due to special circumstances which excuse such nonuse and is not due to any intention to abandon the mark. There must be a recitation of facts as to nonuse for each class for which renewal is sought or it must be clear that the facts recited apply to each class sought to be renewed. If the facts recited require amplification or explanation in order to show excusable nonuse, further evidence may be submitted and considered even though filed after the period for applying for renewal has passed.

* * * * *

37. In § 2.185, paragraphs (a)(2) and (a)(4) are revised. As amended, § 2.185 reads as follows:

§ 2.185 *Requirements for assignments.*

(a) Assignments under section 10 of the act of registered marks, or marks for which an application for registration has been filed, will be recorded in the Patent and Trademark Office. Other instruments which may relate to such marks may be recorded in the discretion of the Commissioner. No assignment will be recorded, except as may be ordered by the Commissioner, unless it has been executed and unless:

* * * * *

(2) It is in the English Language or, if not in the English language, accompanied by a translation signed by the translator;

* * * * *

(4) A designation of a domestic representative is made in case the assignee is not domiciled in the United States. The designation must be separate from the assignment and there must be a separate designation for each registration or application assigned in one instrument.

38. Section 2.187 is revised to read as follows:

§ 2.187 *Certificate of registration may issue to assignee.*

The certificate of registration may be issued to the assignee of the applicant, or in a new name of applicant, and certificate of registration will be so issued provided an appropriate document is of record in the Assignment Division of the Patent and Trademark Office no later than the time the notice of publication is mailed, or if such document is not of record, then if a statement that such document has been filed for recordation is in the application file by the time the application is being prepared for issuance of the certificate of registration. The address of the assignee must be made of record in the application file or in the recorded document.

39. Section 4.2 is revised to read as follows:

§ 4.2 *Power of attorney accompanying application.*

Applicant hereby appoints ---------- (8)
---------- to prosecute this application
(address)
to register, to transact all business in the Patent and Trademark Office in connection therewith, and to receive the certificate of registration.

NOTE: (8) An individual must be appointed. If the name of a law firm is given, it will be regarded merely as a designation of address for correspondence.

§ 4.3 [*Removed*]

40. Section 4.3 is removed.

Effective date: These amendments become effective on February 1, 1976.

Dated: December 11, 1975.

C. MARSHALL DANN,
Commissioner of Patents and Trademarks.

Approved: December 24, 1975.

Second Trial Voluntary Protest Program

A Second Trial Voluntary Protest Program will be conducted during the coming months. It will be increased in scale and somewhat modified in procedure from the first such program. Announcement of and description of the rules for the first program appeared in 923 O.G. 2 on June 4, 1974.

As before, the objective is to gain experience in carrying out such a program and to determine the extent of interest by the public in participating and in supplying pertinent references. To the extent there is participation, the program should be beneficial by bringing new art to the attention of the Office, preventing inadvertent issuance of invalid patents, and increasing confidence in the strength of those patents which survive the protest proceedings.

The first Trial Voluntary Protest Program showed a considerable interest by applicants and the public in taking part in protest proceedings. A summary of the results will be published soon in this Gazette. The second Trial Voluntary Protest Program is designed to gain additional information as to public participation and also to follow more closely the procedures which would be required in a continuing, permanent protest program.

Applications Involved

In the second Trial Voluntary Protest Program, a Request to Participate and Waiver of Confidentiality form (PTOL-224 Temp.) will be sent to each applicant to whom a Notice of Allowance is mailed during a selected three week period, probably in October, 1975. The total number of requests mailed will be about 4,500. Applications for plant patents will be excluded from the program. The reason for this exclusion is the high cost of printing colored drawings and the relatively limited prior art available. No other applications will be excluded from the trial program, regardless of subject matter, type of application or earlier proceedings.

Waiver of Confidentiality

Two copies of the form letter requesting voluntary waiver of confidentiality (form PTOL-224 Temp.) will be mailed in the same envelope along with the Notice of Allowance. An additional copy of the form letter will be made of record in each application at the time of mailing. The applicant will have three months from the notice of allowance date in which to either (1) elect to participate in the Trial Voluntary Protest Program by filing a signed waiver of confidentiality, or (2) elect not to participate in the program by paying the issue fee. If he does neither, the application will become abandoned, as provided in 37 C.F.R. 1.316. The waiver of confidentiality is a part of form PTOL-224 Temp. This procedure will avoid any increase in pendency time for those applications in which an election is made not to participate in the program. An early filing of a waiver of confidentiality by the applicant will result in early publication of the application.

Publication

If the applicant decides not to participate in the protest program and payment of the issue fee is timely made, the patent will issue routinely without delay.

If the applicant elects to participate in the protest program and a signed waiver of confidentiality is filed in the Office within 3 months of the notice of allowance date, the Notice of Allowance will be vacated. In such a case the issue fee should not be filed, as it will not be accepted and applied if filed with a signed waiver of confidentiality. An additional Notice of Allowance will be issued after the protest proceedings have been completed if only allowable claims remain in the application.

After a signed waiver has been filed, the application will be printed in the form of a patent and be available for sale as in the first Trial Voluntary Protest Program. At least one claim and a drawing figure, if any, will be printed in the OFFICIAL GAZETTE. These published applications will appear in about 6 to 9 issues of the OFFICIAL GAZETTE early in 1976. Advance notice will be given in the OFFICIAL GAZETTE of the dates on which applications will be published under this program.

Inspection of Files

The Patent and Trademark Office files of the published applications will be available for inspection by the public for a period of three months after publication. The application files will be retained in a single location in the Patent Issue Division during the protest period. This single location will be staffed with personnel to process papers directed to these files, supervise inspection of the files by the public, provide copies of file contents when ordered, and perform other related duties. A coin operated copying machine will also be available at this location.

Filing of Protests

Protests relating to the patentability of any published application must be filed in writing in the Patent and Trademark Office no later than three months after publication of the application. No extension of the three month protest period will be granted. Each protest must be filed in duplicate (one copy will be forwarded to the applicant and the other copy will be placed in the application file) and must indicate the grounds for protesting the allowance of any claim contained in the published application. If the protest

involves prior art not of record in the application, two copies of the alleged prior art, together with an explanation of the relevance of such prior art to the allowed claims, should be included. The protester may also comment on the prior art record in the application and the manner in which it was applied.

In those applications where prima facie evidence of prior public use or sale the claimed invention is presented in accordance with 37 C.F.R. 1.292, public use proceedings will give the protester an opportunity to present evidence.

Should claims be copied from a published application for interference purposes, the applicant copying claims must also file a notice of such copying in the file of the published application to avoid the possibility of inadvertent issuance of the published application as a patent before conclusion of any interference proceedings.

For easy identification, all protests should be headed, "Protest Under Trial Voluntary Protest Program" and be addressed to:

Commissioner of Patents and Trademarks
Box TVPP
Washington, D.C. 20231

The protester should fully identify himself and include his mailing address so that communications may be addressed to him. In view of administrative problems encountered in the first Trial Voluntary Protest Program in protecting the confidentiality of the identity of protesters, no attempt will be made by the Office to maintain the confidentiality of any protester under the new program.

If no protests are received during the protest period, the application file will be rerouted for the mailing of a new Notice of Allowance. The file will not be returned to the examining group except for consideration of matters which normally require return of an allowed file.

If one or more protests are filed in an application, the application file and the protest(s) will be returned to the examining group for consideration.

Consideration of Protest

The examining group will acknowledge receipt of all protests. The authority for deciding whether or not the evidence submitted constitutes a prima facie showing of unpatentability of any allowed claim will reside with the Group Director. If the Group Director decides that no such showing has been made, the application will be forwarded to the Patent Issue Division for mailing of a new Notice of Allowance. Protesters will be notified in such cases that prosecution has not been reopened, and the applicant will be sent a duplicate copy of all protests. The decision of the Group Director will be final and will not be subject to petition by a protester.

If the Group Director decides that the submitted evidence constitutes a prima facie showing of unpatentability of any allowed claim, prosecution of the application will be reopened. The decision to reopen prosecution will be communicated to the applicant by means of an Office action, signed by a primary examiner, rejecting any claim considered unpatentable. The duplicate copy of each protest will be mailed to the applicant with the Office action. Protesters who submitted evidence on which the rejection is based will be identified in the Office action and will also receive copies of this and subsequent Office actions. Other protesters will be notified that prosecution has been reopened, but based on evidence and for reasons other than those submitted by them and that, consequently, no further correspondence will be directed to them. The applicant will normally be given a three month shortened statutory period to respond to the Office action.

Response by the Applicant to Subsequent Office Actions

During this period, the applicant may present amended or new claims which will be subject to further consideration by the primary examiner. In order to allow protesters who submitted evidence on which a rejection in the Office action is based to participate in later prosecution and to comment upon further proceedings, applicant will be required to serve by mail upon each protester identified in the Office action, a copy of any response filed, including any appeal brief. Indication of such service will be a required component of a complete response. Applicant need only reply to the rejections and objections made in the Office action. There need be no specific response to any other points raised by the protesters.

Comment on Applicant's Response by the Protester

Each protester served will be allowed one month, running from the date applicant's response or brief is received in the Patent and Trademark Office, to file comments relating thereto. All communications from protesters must be in writing. Examiner interviews with the protesters will not be permitted. No extensions of the one month period will be granted.

Any appeal by the applicant to the Board of Appeals in a protested application will be made special and will be taken up out of order.

Conclusion of Prosecution

If, after further prosecution, the application is found to be allowable, all protesters still participating at that time will be notified and the application will be forwarded to the Patent Issue Division for mailing of a new Notice of Allowance. A decision of the primary examiner to allow an application will not be subject to petition or appeal by any protester.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See Rules 2.101 to 2.105.

A separate fee of twenty-five dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sept. 1, 1973 rather than the international class which applies to applications filed on and after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of June 26, 1973 (911 O.G. TM 210).

For Inflatable Dolls and Balloons (U.S. Cl. 22).

First use Mar. 16, 1973.

SN 25,067. Mastro Industries, Inc., Bronx, N.Y. Filed June 24, 1974.

MASTRO

Class 9—Electrical and Scientific Apparatus

For Tape Recording Parts and Accessories—Namely, Cassettes, Eight-Track Cartridges and Quadrophonic Cartridges, in Assembled and Unassembled States; Parts for Eight-Track and Quadrophonic Cartridges—Namely, Pinch Rollers; Parts for Cassettes—Namely, Roller Guides and Hubs; Dust Caps Covering Fronts of Cartridges; Eight-Track Cartridges and Cassettes Each Having Blank Recording Tape Therein; Eight-Track Cartrdiges and Cassettes Each Having Head Cleaning Ribbons Therein; Plastic Boxes for Storing Cassettes; Cassette Tape Reels (U.S. Cl. 36).

Class 27—Floor Coverings

For Plastic Wall Tile (U.S. Cl. 20).

First use on or about Mar. 3, 1959.

SN 25,093. Norton Company, Worcester, Mass. Filed June 24, 1974.

NORALIDE

Class 7—Machinery

For Ceramic Components for Engines and Turbines for Stationary Power Generation and Vehicles Other than Land Vehicles (U.S. Cl. 23).

Class 12—Vehicles

For Ceramic Components for Engines and Turbines for Land Vehicles (U.S. Cl. 23).

First use during or before June 1973.

SN 27,936. Pacific Scale Co., Inc., Portland, Oreg. Filed July 29, 1974.

Applicant disclaims the words "Scale Co." apart from the mark as shown.

Class 9—Electrical and Scientific Apparatus

For Mechanical Scales, Electronic Scales, Hydraulic Scales, Check Weighing Scales, Automatic or Semi-Automatic Filling Devices Metering by Weight, Automatic or Semi-Automatic Batching Devices Using Weight as a Control Factor, Push or Pull Test Machines Indicating in Weight Units Such as Pounds, Tons, Kilo's etc. (U.S. Cl. 26).

Class 37—Construction and Repair

For Adjusting and Repairing Weighing Scales and Force Measuring Devices (U.S. Cl. 103).

Class 42—Miscellaneous

For Testing Weighing Scales for Accuracy (U.S. Cl. 100).

First use May 15, 1973.

SN 29,123. Master Pneumatic-Detroit, Inc., Sterling Heights, Mich. Filed Aug. 9, 1974.

Owner of Reg. No. 632,082.

Class 7—Machinery

For Lubricators and Mechanical Dust and Moisture Traps All for Use in Pneumatic Airlines, and All (U.S. Cl. 23).
First use June 30, 1955.

Class 9—Electrical and Scientific Apparatus

For Pressure Regulators for Pneumatic Airlines (U.S. Cl. 26).
First use at least as early as August 1959.

Class 11—Environmental Control Apparatus

For Filters for Pneumatic Airlines (U.S. Cl. 31).
First use June 30, 1955.

SN 32,995. Rollei-Werke Franke & Heidecke, Braunschweig, Germany. Filed Sept. 26, 1974.

Owner of German Reg. No. 907,083, dated Jan. 13, 1973.

Class 16—Paper Goods and Printed Matter

For Printed Matter—Namely, Name Tags, Brochures, Pamphlets, Envelopes, Letter Writing Paper, and Baggage Labels, All Relating to Travel Connected With Applicant's Sales Conferences and Seminars (U.S. Cls. 37 and 38).

Class 39—Transportation and Storage

For Travel Services—Namely, Planning Trips and Supplying Transportation by Air, Water, or Land, and Supplying Travel Data and Other Information in Connection Therewith (U.S. Cl. 105).

First use in or about March 1973; in commerce in or about March 1973.

SN 34,079. Canron Limited-Canron Limitie, Montreal, Quebec, Canada. Filed Dec. 9, 1974.

CANRON

Owner of Canadian Reg. No. 200,244, dated June 28, 1974.

Class 6—Metal Goods

For Metal Products—Namely, Alloy Iron Castings, Gray Iron Castings, Wheels, Tunnel Liners, Ductile Iron Pipe, Gray Iron Pipe, Pipe Couplings and Fittings, Sluice Gates, Steel Joists, Structural Steel for Buildings, Bridges, Tanks, Towers and Warehouses; Ingot Molds, Mill Liners, Mine Skips and Cages, Water Hydrants, Hydraulic Gates and Shipping Containers (U.S. Cls. 2, 12, 13, and 14).

Class 7—Machinery

For Machinery—Namely, Brakes, Hydraulic Presses and Shears, Mechanically Presses, Pulp and Paper Mill Machinery, Rubber and Plastics Machinery, Machinery Gears, Steel Mill Machinery, Conveyor Systems, Cranes and Bulk Loading Machinery (U.S. Cl. 23).

Class 9—Electrical and Scientific Apparatus

For Electrical Products—Namely, Alternators, Electric Motors, Generators, Variable Speed Drive Systems, Traction Motors, Microwave Structures and Rail Welding Equipment (U.S. Cl. 21).

Class 12—Vehicles

For Railway Vehicles—Namely, Ballast Cleaners, Brush Cutters, Cross Tie Renewers, Ballast Tampers, Rail Bolters, Drills and Lubricators, Snow Blowers, Spike Pullers and Drivers, Switch Tampers, Tamping Jacks, Track Laying and Lifting Equipment, Track Liners and Switchers, Track Recording Cars and Hand and Motor Rail Cars (U.S. Cls. 19 and 23).

Class 19—Non-Metallic Building Materials

For Concrete and Plastic Pipe (U.S. Cls. 12 and 13).

SN 37,542. Technicon Instruments Corporation, Tarrytown, N.Y. Filed Nov. 19, 1974.

SMAC

Owner of Reg. Nos. 842,037 and 920,963.

Class 1—Chemicals

For Reagents and Preparations Employed as Reference Standards for Use in Laboratory Sample Analysis (U.S. Cl. 6).
First use at least as early as Nov. 18, 1974.

Class 9—Electrical and Scientific Apparatus

For Biochemical Analyzer for Quantitative Analysis of Blood and Other Fluid Samples Including Display of Analytical Results (U.S. Cl. 26).
First use at least as early as May 13, 1974.

SN 38,078. Porta-Tool, Inc., Clovis, Calif. Filed Nov. 25, 1974.

Class 1—Chemicals

For Chemical Products Used in Industry—Namely, Retaining Compounds Employed in Mounting Sleeves in Engines, Primers Used in Removing Grease and the Like From Engine Sleeves Prior to Remounting and Powders of a Magnetic Nature Employed in Detecting Fractures in Metal Objects (U.S. Cl. 6).

Class 7—Machinery

For Machines and Machine Tools—Namely, Boring Machines, Counterboring Machines, Flange Facing Machines, Grinding Machines and Parts Therefor (U.S. Cl. 23).

Class 8—Hand Tools

For Hand Tools—Namely, Boring Tools, Counterboring Tools, Chamfering Tools, Valve Seat Extracting Tools, Dowel Extracting Tools, Growing Tools, Injector Sleeve Removing Tools, Injector Removing Tools, Piston Ring Compressing Tools, Tachometer Drive Pulling Tools, Expansion Plug Pulling Tools, Stud Installing and Removing Tools, Line Pulling Tools, Cylinder Liner Pulling Tools, Screwthreading Tools, Pulley Installing and Removing Tools, Bolt Removing Tools and parts Therefor (U.S. Cl. 23).

Class 9—Electrical and Scientific Apparatus

For Measuring Instruments and Guides for Use With Machine and Hand Tools—Namely, Engine Block Measuring Tools, Concentricity Gauges, Tools for Checking the Protrusion of Injectors in Diesel Engines Into the Cylinders Thereof, Magnetic Particle Inspection Tools Used in Combination With Powders of a Magnetic Nature to Detect Fractures in Metal Objects, Plug Gauges and Parts Therefor (U.S. Cl. 26).

First use at least as early as September 1966.

SN 40,928. Unitek Corporation, Monrovia, Calif. Filed Jan. 6, 1975.

RESCUE SQUAD

Class 3—Cosmetics and Cleaning Preparations

For Dental Prophylaxic Paste (U.S. Cl. 51).
First use at least as early as Oct. 4, 1974.

Class 5—Pharmaceuticals

For Dental Fluoride Products—Namely, Topical Fluoride Gels, Sodium Fluoride Tablets, Fluoride Mouth Rinse, Fluoridated Prophylaxis Paste, and Kits Comprised of Fluoride Treatment Materials and Applicator Trays Therefor (U.S. Cl. 18).

First use at least as early as Aug. 28, 1974.

Class 10—Medical Apparatus

For Applicator Trays for Fluoride Gels (U.S. Cl. 44).
First use at least as early as Aug. 30, 1974.

SN 44,369. Cook Paint and Varnish Company, Kansas City, Mo. Filed Feb. 18, 1975.

COROTHANE

Class 1—Chemicals

For Urethane Clear Glaze and Urethane Reducer (U.S. Cl. 16).

First use at least as early as Mar. 27, 1957.

Class 2—Paints

For Urethane Pigmented Coatings (U.S. Cl. 16).
First use at least as early as November 1971.

SN 45,906. Volkswagen of America, Inc., Englewood Cliffs, N.J. Filed Mar. 5, 1975.

AUTOBAHN

The mark "Autobahn" translated into English means "Automobile route." Owner of Reg. No. 792,576.

Class 3—Cosmetics and Cleaning Preparations

For Automobile Accessories—Namely, Windshield Washer Solvent With Antifreeze (U.S. Cl. 6).

Class 9—Electrical and Scientific Apparatus

For Reflective Triangle Mounted on Base for Use as a Road Hazard Warning (U.S. Cl. 50).

First use on or before Oct. 30, 1974.

SN 47,703. Danfoss, Inc., Mahwah, N.J. Filed Mar. 26, 1975. Owner of Reg. No. 963,532.

Across the country, around the world.

Class 7—Machinery

For Compressors, Non-Electric Valves, Pressure Valves, Oil Separators, and Components Thereof (U.S. Cl. 23).

Class 9—Electrical and Scientific Apparatus

For Automatic Controls for Refrigeration Plants and for Heating Plants—Namely, Temperature Regulators, Thermostatic Expansion Valves, Solenoid Valves, Expansion Valves and Components Thereof (U.S. Cl. 26).

Class 11—Environmental Control Apparatus

For Fan-Cooled Condensing Units; Refrigeration Plants. Comprising Compressors, Thermostatic Expansion Valves and Separators Sold as a Unit and Automatic Shower Valves and Components Thereof (U.S. Cl. 31).

First use Aug. 25, 1972.

SN 49,323. American Society of Internal Medicine, San Francisco, Calif. Filed Apr. 14, 1975.

Class 16—Paper Goods and Printed Matter

For Publications—Namely, Books, Pamphlets, Brochures, Newsletters and Magazines in the Field of Internal Medicine Issued From Time to Time (U.S. Cl. 38).

Class 42—Miscellaneous

For Association Services—Namely, Promoting the General Interests of Medical Doctors Specializing in the Field of Internal Medicine (U.S. Cl. 100).

First use as early as Jan. 1, 1974.

SN 49,720. R. E. Phelon Company, Inc., East Longmeadow, Mass. Filed Apr. 17, 1975.

PHELON

Class 6—Metal Goods

For Die Castings (U.S. Cl. 14).

Class 7—Machinery

For Magnetos; Alternators; Generators; Electronic Engine Ignition Systems for Internal Combustion Engines; Engine Ignition Coils; Engine Ignition Breaker Point Assemblies; Rotors for Magnetos, Alternators and Generators; Stators for Magnetos, Alternators and Generators; Engine Ignition System Housings; and Spark Plug Covers and Connectors (U.S. Cl. 23).

Class 9—Electrical and Scientific Apparatus

For Engine Starter Solenoids; Engine Carburetor Solenoids; Voltage Regulators; Rectifiers; Capacitors and Transformers (U.S. Cl. 21).

First use 1964.

SN 49,941. Hortechnica AG, Zurich, Switzerland. Filed Apr. 18, 1975.

plantina

Owner of Swiss Reg. No. 272,592, dated Aug. 22, 1974.

Class 17—Rubber Goods

For Foils, Sheets and Stakes Made of Plastic for Agricultural, Horticultural and Hobby Gardening (U.S. Cls. 1 and 50).

Class 19—Non-Metallic Building Materials

For Portable Buildings (U.S. Cl. 12).

Class 22—Cordage and Fibers

For Ropes; Protective Netting Made of Plastic for Protection of Seedlings, Plants and Fruits (U.S. Cls. 7 and 42).

SN 54,468. Medalist Industries, Inc., Milwaukee, Wis. Filed June 9, 1975.

CUT'N JUMP

Class 9—Electrical and Scientific Apparatus

For Life Jackets, Buoyant Vests and Belts, Life Preservers and Life Ring Buoys (U.S. Cl. 22).

First use 1965.

Class 25—Clothing

For Surfing Suits and Water Ski Suits (U.S. Cl. 39).

First use September 1973.

Class 28—Toys and Sporting Goods

For Water Skis, Water Ski Bindings, Water Ski Skegs, Keels or Rudders, Water Ski Towlines, Harnesses, Bridles, Flags, Handles and Carrying Cases (U.S. Cl. 22).

First use June 1955.

SN 54,784. Concept 2000 (Hong Kong) Limited, Hong Kong. Filed June 11, 1975.

Class 9—Electrical and Scientific Apparatus

For Transistor Radios, Transceivers (U.S. Cl. 21).

Class 28—Toys and Sporting Goods

For Toys—Namely, Dolls, Doll Head and Doll Play Accessories (U.S. Cl. 22).

First use January 1975; in commerce March 1975.

SN 62,397. Trionic Industries, Inc., Harrisburg, Pa. Filed Sept. 8, 1975.

SENTINEL

Class 9—Electrical and Scientific Apparatus

For Installation Test Units for Installing Automatic Stack Dampers (U.S. Cl. 21).

Class 11—Environmental Control Apparatus

For Automatic Stack Dampers and Adaptors Therefor (U.S. Cl. 34).

First use July 11, 1975.

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

For Rubber Mats and Plates, Pier Bumpers (Int. Cl. 17).

SN 449,502. F. Peroni & C. S.p.A., Milan, Italy. Filed Feb. 22, 1973.

MINAIR

Priority claimed under Sec. 44(d) on Italian application filed Sept. 27, 1972; Reg. No. 286,221, dated Dec. 12, 1974.

Class 13—Hardware and Plumbing and Steam-Fitting Supplies

For Valves Having Either a Manual, Pneumatic, Hydraulic or Electric Control Used on Machines and Machine Tools (Int. Cl. 6).

Class 21—Electrical Apparatus, Machines, and Supplies

For Electric Distributors, Electric Motors, Electric Batteries (Int. Cl. 9).

Class 23—Cutlery, Machinery, and Tools, and Parts Thereof

For Pneumatic, Hydraulic and Electro-Pneumatic Distributors; Pneumatic and Hydraulic Motors; Rotary Actuators; Hydraulic Speed Regulators; Hydraulic Presses; Rotary Tables for Transferring Materials (Int. Cl. 7).

SN 457,578. Raymo Products, Inc., Olathe, Kans. Filed May 14, 1973.

RAYMO

Class 2—Receptacles

For Trays and Racks for Coins (Int. Cl. 20).
First use February 1965.

Class 3—Baggage, Animal Equipment, Portfolios, and Pocketbooks

For Carrying and Display Cases for Coins (Int. Cl. 18).
First use February 1965.

Class 9—Explosives, Firearms, Equipments, and Projectiles

For Cases for Guns (Int. Cl. 13).
First use February 1965.

Class 19—Vehicles

For Mobile Medication Carts (Int. Cl. 12).
First use during April 1967.

Class 22—Games, Toys, and Sporting Goods

For Cases for Fishing Rods, Cards and Dice (Int. Cl. 28).
First use February 1965.

Class 38—Prints and Publications

For Printed Diet and Medication Cards (Int. Cl. 16).
First use February 1965.

Class 44—Dental, Medical, and Surgical Appliances

For Medical Equipment—Namely, Trays and Racks for Instruments and Medications and Racks for Medication and Diet Cards (Int. Cl. 10).
First use February 1965.

SN 467,199. The Mechanex Corporation, Englewood, Colo. Filed Aug. 31, 1973.

MECHANEX

Class 21—Electrical Apparatus, Machines, and Supplies

For Internal Wheel Hub Magnets (Int. Cl. 9).
First use 1967.

Class 23—Cutlery, Machinery, and Tools, and Parts Thereof

For Vehicle and Machinery Lubricators (Int. Cl. 7).
First use 1971.

Class 26—Measuring and Scientific Appliances

For Hubodometers, Speedometers, and Tachometers (Int. Cl. 9).
First use 1965.

Class 35—Belting, Hose, Machinery Packing, and Nonmetallic Tires

For Wheel Oil Seals and Tire Valve Stem Locks (Int. Cls. 6 and 17).
First use 1950.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sept. 1, 1973 rather than the international class which applies to applications filed on and after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of June 26, 1973 (911 O.G. TM 210).
